Name: tripNumber

Full Path: requeueRequest.tripNumber

Type: String Value

Is Required?:

Minimum Length:

8

Maximum Length:

25

#### Sample JSON:

"tripNumber": "12345677"

# Description:

- Trip number (ACE or ACI) that messages to be requeued pertain to.

Section: 1.5

# Message Contains

Name: messageContains

Full Path: requeueRequest.messageContains

No

Type: String Value

Is Required?:
Minimum Length:
Maximum Length:

Sample JSON:

"messageContains": "HIGHWAY"

# Description:

- Text that messages to be requeued must contain.

Send Id Section: 1.6

Name: sendId

Full Path: requeueRequest.sendId

Type: String Value

Is Required?:

Minimum Length:

1

Maximum Length:
68

## Sample JSON:

"sendId": "001"

## Description:

- Unique ID assigned by the software integrating with BorderConnect.
- Will be quoted in server responses related to your JSON upload.
- e.g. if this is an ACE Trip Create operation, the server response advising the success or failure of the create will quote the value you provide in this field.
- This field is never required, nor will any validation prevent you from duplicating send IDs.
